On page 1 of the specification, after the title, please insert—This is a Continuation of Patent Application serial number 10/054,561, filing date 1/22/02, now U.S. Patent # 6,706,591, Method of Forming a Stacked Capacitor Structure with Increased Surface Area for a Dram Device, assigned to the same assignee as the present invention.

#### *Allowable Subject Matter*

2. The following is an examiner's statement of reasons for allowance: prior art doesn't suggest or teach a second portion of said storage node shape overlies portions of a top surface of said insulator layer; said storage node shape having alternate rows of doped regions therein that are aligned horizontally and parallel to the top surface of said insulator layer, and having alternate rows of undoped regions therein that are also aligned horizontally and parallel to the top surface of said insulator layer, with each set of said doped regions separated by and a respective one of said undoped regions; said storage node shape further having lateral grooves extending inwards from sides of each said doped region in said storage node shape, and wherein each said undoped region of said storage node shape exhibits smooth, non-groove sides a capacitor dielectric layer located on a smooth top surface of, and on sides of said storage node shape, and

wherein said capacitor dielectric layer conforms to contour of the surfaces of the lateral grooves in each said doped region of said storage node shape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
